Before Assembly:

1. Check the appearance and completeness of items in pack! Claims for damage can only be made for articles with NO evidence of assembly.
2. Keep packs and instructions until assembly completed! If defects or missing parts are noted during assembly, the pack must be kept until the arrival of Seller's representative.
3. Check the quantity of hardware items against the list. The manufacturer retains the right to make construction changes in an item, replace hardware and fasteners with equivalent items that do not detract from their appearance, nor affect their functionality. In the case of missing parts or breakage, circle the number of the missing item and inform the store to receive a replacement.
4. Follow the assembly sequence in these instructions! Manufacturer's warranty obligations become void if instructions for assembly and use are not followed.
5. Install the bed on a level floor surface! On an uneven floor, the bed adjustment mechanisms may not work correctly or become deformed. Assemble bed with 2 people.
6. Assemble parts with care without sharp twists. Set parts stably on floor. Avoid dropping or banging!
7. Move furniture and its parts with only slight lifting. This helps to prevent distortions and breakage.
8. Be sure to lubricate the lifting mechanism during assembly according to the instructions! It allows you to avoid early appearance of creaking. Repeat lubrication; tighten loose bolts and nuts at least once every six months
9. New furniture can give off the original smell of the materials from which it is manufactured. The smell can last for three weeks after assembly. It is recommended to vacuum an item and ventilate the room to reduce the strength of the smell. One should repeat these steps 3-4 times per day.

Antes del montaje:

1. ¡Compruebe el aspecto y la integridad de las piezas en el embalaje! Se aceptan reclamaciones por daños solo de los artículos SIN rastros de montaje.
2. ¡Conserve el embalaje y las instrucciones hasta terminar el montaje! Si durante el proceso de montaje se detecta algún defecto y falta de alguna pieza del artículo, debe conservar el embalaje hasta la llegada a su domicilio del representante de la empresa comercial.
3. Verifique la cantidad de accesorios según la lista. El fabricante se reserva el derecho de realizar cambios estructurales del artículo, reemplazar accesorios y piezas metálicas por otros similares que no afecten la apariencia y las propiedades funcionales del artículo. En caso de falta o rotura, marque el número de la pieza faltante e informe a la tienda para su cambio.
4. ¡Siga el procedimiento de montaje que se proporciona en este manual! Si no se sigue las instrucciones de montaje y uso, el fabricante no se responsabiliza de la garantía.
5. Para el montaje de la cama, ¡elija una superficie plana! En una superficie no plana, es posible el mal funcionamiento del mecanismo de transformación de la cama, deformaciones del artículo.
6. El montaje de la cama debe ser realizada por dos personas. Mueva todas las piezas con cuidado, sin sacudidas, colóquelas sólidamente, evite las caídas y golpes!
7. Mueva el mueble y sus piezas levantando ligeramente. Esto permitirá evitar la deformación y roturas.
8. ¡Lubrique sin falta el mecanismo de elevación durante el ensamble, de acuerdo con las instrucciones! Esto evitará que surjan crujidos antes de tiempo. Repita la lubricación y apriete los tornillos y tuercas flojas al menos una vez cada seis meses.
9. El mueble nuevo puede emitir un olor natural de los materiales de fabricación. El olor puede persistir hasta por tres semanas desde el momento del montaje. Para reducir la intensidad del olor, se recomienda aspirar el artículo y ventilar la habitación. Estas acciones deben repetirse 3-4 veces al día.

Antes da montagem:

1. Verifique o tipo e a integridade das peças da embalagem! Reclamação somente por defeitos de fabricação SEM vestígios de montagem.
2. Guarde a embalagem e o manual antes de terminar a montagem! Se identificar que produto está com defeito e incompleto durante a montagem, é necessário guardar a embalagem até a visita do representante comercial da empresa.
3. Verifique o número de peças de acessórios de acordo com a lista. O fabricante reserva-se o direito de fazer alterações estruturais no produto, substituir acessórios e peças por similares que não prejudiquem a aparência e não afetem as propriedades funcionais do produto. Em caso de falta ou dano, destaque o número da peça que falta e informe à loja para que seja feita a substituição.
4. Observe a sequência de montagem que está nas instruções! A não observância das instruções de montagem e de operação do fabricante retira as obrigações de garantia.
5. Escolha uma área plana para a instalação da cama! Com a curvatura do piso, podem ocorrer desvios na operação do mecanismo de transformação da cama, o que pode distorcer a forma do produto.
6. Não realize a montagem da cama sozinho(a). Mova todas as peças com cuidado, sem solavancos, coloque-as firmemente, evite quedas e batidas!
7. Para mover o móvel e suas peças, apenas levante-o um pouco. Isto evitará deformação e quebra.
8. De acordo com o manual na montagem precisa lubrificar um mecanismo de elevação necessariamente. Isso permitirá evitar o aparecimento de ruídos prematuros. Repita a lubrificação, aperte os parafusos e as porcas soltos pelo menos.
9. Móveis novos podem exalar o cheiro natural dos materiais dos quais são feitos. O cheiro pode persistir por três semanas após a montagem. Para reduzir a intensidade do cheiro, é recomendável aspirar o produto e ventilar a área. Isto deve ser feito 3-4 vezes ao dia.

Vor der Montage:

1. Überprüfen Sie bitte das Aussehen und die Vollständigkeit der Bauelemente in der Verpackung! Reklamationen wegen einer Beschädigung der Bauelemente werden nur bei Produkten OHNE Montagespuren angenommen.
2. Bewahren Sie bitte die Verpackung und die Montierungsanweisungen bis Ende der Montage auf! Bei der Feststellung von Mangelwaren im Prozess der Montage und einer Unvollständigkeit des Produktes muss man die Verpackung bis zum Moment aufbewahren, wenn ein Vertreter des Handelsunternehmens zu Ihnen kommt.
3. Überprüfen Sie die Anzahl der Bauelemente und der Beschläge laut der Liste. Das Herstellerunternehmen behält sich das Recht vor, konstruktive Änderungen im Produkt einzutragen, Beschläge und Kleinteile gegen gleiche Elemente zu ersetzen, die das Aussehen nicht verschlechtern und die Funktionseigenschaften des Produktes nicht beeinflussen. Im Fall einer Unvollständigkeit oder eines Defektes,

zeichnen Sie bitte die Nummer des abwesenden Bauelementes aus und teilen Sie davon dem Lieferanten für seinen Ersatz mit.

4. Halten Sie bitte die Ordnung der Montage ein, die in dieser Bedienungsanleitung angegeben ist! Wenn die Montierungsanweisungen und Bedienungsanweisungen nicht eingehalten werden, erlöschen die Garantieverpflichtungen des Herstellerunternehmens.
5. Wählen Sie eine flache Bodenfläche für die Montage des Bettes! Wenn Verformungen des Bodens vorliegen, sind Abweichungen in der Arbeit des Transformationsmechanismus des Bettes und Schiefstellungen der Form des Produktes möglich.
6. Führen Sie die Montage des Bettes zu zweit aus. Bewegen Sie alle Bauelemente vorsichtig, ruckfrei, legen Sie sie bitte trittsicher, vermeiden Sie, dass sie fallen und geschlagen werden!
7. Bewegen Sie das Möbel und seine Bauelemente nur wenig lüpfend. Das lässt Verformungen und Brüche vermeiden.
8. Schmieren Sie die reibenden Teile der Vorrichtung während der Montage, schrauben Sie gelöste Bolzen und Muttern nicht seltener als einmal im halben Jahr! Das lässt die Entstehung des frühzeitigen Knirschens vermeiden.
9. Das neue Möbel kann einen natürlichen Duft der Stoffe haben, wovon es hergestellt ist. Der Duft kann im Laufe von drei Wochen ab dem Moment der Montage bleiben. Es wird empfohlen, das Produkt mit dem Staubsauger zu reinigen und den Raum zu lüften, damit die Intensität des Duftes reduziert wird. Diese Handlungen muss man 3-4 Mal pro Tag ausführen.

Πριν από τη συναρμολόγηση:

1. Ελέγξτε την εμφάνιση και την ακεραιότητα των ανταλλακτικών στη συσκευασία! Αξιώσεις για ζημιά μόνο σε προϊόντα ΧΩΡΙΣ ίχνη συναρμολόγησης.
2. Διατηρήστε τη συσκευασία και τις οδηγίες μέχρι το τέλος της συναρμολόγησης! Εάν κατά τη διαδικασία συναρμολόγησης εντοπιστεί ελαττωματικό και ελλιπές προϊόν, είναι απαραίτητο να διατηρήσετε τη συσκευασία μέχρι να έρθει εκπρόσωπος της εμπορικής εταιρείας σε σας.
3. Ελέγξτε τον αριθμό των εξαρτημάτων υλικού σύμφωνα με τη λίστα. Ο κατασκευαστής διατηρεί το δικαίωμα να κάνει αλλαγές στο σχεδιασμό του προϊόντος, να αντικαταστήσει εξαρτήματα και εξοπλισμό με παρόμοια που δεν επιδεινώνουν την εμφάνιση και δεν επηρεάζουν τις λειτουργικές ιδιότητες του προϊόντος. Σε περίπτωση ατελούς ή βλάβης, κάντε κύκλο στον αριθμό του ελλείποντος τμήματος και ενημερώστε το κατάστημα για την αντικατάστασή του.
4. Ακολουθήστε τη σειρά συναρμολόγησης που παρέχεται σε αυτό το εγχειρίδιο! Η μη τήρηση των οδηγιών συναρμολόγησης και λειτουργίας ακυρώνει την εγγύηση του κατασκευαστή.
5. Για να εγκαταστήσετε το κρεβάτι, επιλέξτε μια επίπεδη επιφάνεια του δαπέδου! Με καμπυλότητες δαπέδου, είναι πιθανές αποκλίσεις στη λειτουργία του μηχανισμού μετασχηματισμού κλίσης και παραμορφώσεων σχήματος προϊόντος. Συναρμολογήστε το κρεβάτι μαζί.
6. Μετακινήστε προσεκτικά όλα τα υλικά, χωρίς να χτυπήσετε, τοποθετήστε τα με ασφάλεια, αποφύγετε την πτώση και την πρόσκρουση!
7. Μετακινήστε τα έπιπλα και τα μέρη του λίγο ανεβαινόντας τα. Αυτό θα εξαλείψει τις παραμορφώσεις και τις βλάβες. Φροντίστε να λιπάνετε το μηχανισμό ανύψωσης κατά τη συναρμολόγηση σύμφωνα με τις οδηγίες! Αυτό θα αποφύγει το πρόωρο τσίμπημα.
8. Φροντίστε να λιπάνετε το μηχανισμό ανύψωσης κατά τη συναρμολόγηση σύμφωνα με τις οδηγίες! Αυτό θα αποφύγει το πρόωρο τσίμπημα. Λιπάνετε εκ νέου, σφίξτε τα χαλαρά μπουλόνια και τα παξιμάδια τουλάχιστον μία φορά κάθε έξι μήνες.
9. Τα νέα έπιπλα μπορεί να εκπέμπουν μια φυσική μυρωδιά υλικών από τα οποία είναι κατασκευασμένα. Η μυρωδιά μπορεί να διαρκέσει έως και τρεις εβδομάδες από την ημερομηνία συναρμολόγησης. Για να μειώσετε την ένταση της οσμής, συνιστάται να καθαρίσετε με ηλεκτρική σκούπα το προϊόν και να αερίσετε το δωμάτιο. Αυτά τα βήματα πρέπει να επαναλαμβάνονται 3-4 φορές την ημέρα.

Pirms montāžas darbiem:

1. Pārbaudiet detaļu izskatu un pilnību iepakojumā! Prasības par to bojājumiem tikai produktiem BEZ montāžas darbu pēdām.
2. Saglabājiet iepakojumu un instrukciju līdz montāžas darbu beigām! Ja montāžas procesā tiek atklāts produkta defekts un nepilnība, Jums ir jā saglabā iesaiņojums, līdz tirdzniecības uzņēmuma pārstāvis atbrauks pie Jums.
3. Pārbaudiet piederumu skaitu atbilstoši sarakstam. Ražotājs patur tiesības veikt izstrādājuma konstruktīvās izmaiņas, nomainīt piederumus un metālizstrādājumus ar analogiem, kuri nepasliktina izskatu un neietekmē produkta funkcionālās īpašības. Nepilnības vai bojājumu gadījumā apvelciet trūkstošās daļas numuru un informējiet veikalā par tās nomaiņu.
4. Izpildiet šajā instrukcijā norādīto montāžas kārtību! Montāžas un lietošanas instrukcijas neievērošana anulē ražotāja garantijas atbildību.
5. Lai uzstādītu gultu, izvēlieties līdzenu grīdas virsmu! Pie grīdas izliekumiem ir iespējamas novirzes gultas pārveidošanas mehānisma darbībā, izstrādājuma formas deformācijas. Gultas montāžas darbus veiciet divatā.
6. Pārvietojiet visas daļas uzmanīgi, bez raustīšanās, novietojiet tās droši, izvairieties no viņu krišanas un triecieniem! Pārvietojiet mēbeles un to daļas, tikai nedaudz paceļot. Tas novērsīs deformācijas un lūzumus.
7. Montāžas laikā noteikti ieeļļojiet pacēlāja mehānismu saskaņā ar instrukcijām! Tas ļaus izvairīties no priekšlaicīgas čīkstēšanas. Atkārtoti ieeļļojiet, pievelciet vaļīgas skrūves un uzgriežņus vismaz reizi sešos mēnešos.
8. Montāžas laikā noteikti ieeļļojiet pacēlāja mehānismu saskaņā ar instrukcijām! Tas ļaus izvairīties no priekšlaicīgas čīkstēšanas. Atkārtoti ieeļļojiet, pievelciet vaļīgas skrūves un uzgriežņus vismaz reizi sešos mēnešos.
9. Jaunas mēbeles var izdalīt dabisku smaržu no materiāliem, no kuriem tās izgatavotas. Smarža var ilgt līdz trim nedēļām no montāžas datuma. Lai samazinātu smakas intensitāti, ieteicams produktu nosūkt ar putekļu sūcēju un izvēdināt telpu. Šīs darbības jāatkārto 3-4 reizes dienā.

Înainte de asamblare:

1. Verificați aspectul și integritatea detaliilor din pachet! Cererile pentru daunele lor sunt acceptate numai pentru produse FĂRĂ urme de asamblare.
2. Păstrați ambalajul și instrucțiunile până la sfârșitul asamblării! La detectarea defectelor în procesul de asamblare și dacă produsul este incomplet, este necesar să păstrați ambalajul până când reprezentantul companiei comerciale vă vizitează.
3. Verificați numărul de detalii și accesorii conform listei. Producătorul își rezervă dreptul de a face modificări constructive ale produsului, de a înlocui fittingurile și hardware-ul cu altele similare, care nu degradează aspectul și nu afectează proprietățile funcționale ale produsului. Dacă există o lipsă sau o defecțiune, încercați numărul detalii lipsă și informați magazinul să o înlocuiască.
4. Urmați procedura de asamblare dată în această instrucțiune! În caz de nerespectare a instrucțiunilor de asamblare și utilizare, obligațiile de garanție de la producător sunt eliminate.

5. Pentru a instala patul, alegeți o zonă plată a podelei! În cazul curbării podelei, abaterile sunt posibile în funcționarea mecanismului de transformare a patului și distorsiuni ale formei produsului.
6. Se recomandă ca două persoane să efectueze asamblarea patului. Mutați cu atenție toate detaliile, fără smucituri, le puneți stabil, evitați căderi și lovituri lor!
7. Mutați mobilierul și detaliile acestuia, ridicând doar ușor. Aceasta va elimina deformările și defalcări.
8. Asigurați-vă că lubrifiați mecanismul de ridicare în timpul asamblării, conform instrucțiunilor! Aceasta va ajuta la evitarea apariției scârâitului prematur. Repetați lubrifierea, strângeți șuruburile și piulițele slăbite cel puțin o dată la șase luni.
9. Mobilierul nou poate avea un miros natural al materialelor din care este fabricat. Mirosul poate persista timp de trei săptămâni de la momentul asamblării. Pentru a reduce intensitatea mirosului, se recomandă aerisirea produsului și ventilarea camerei. Aceste acțiuni trebuie repetate de 3-4 ori pe zi.

Enne kokkupanemist:

1. Kontrollige pakendis olevate detailide välimust ja tervikkikkust! Nende kahjuga seotud pretensioone aktsepteeritakse ainult ILMA kokkupanemisjälgedeta toodete puhul.
2. Säilitage pakend ja juhised kuni kokkupaneku lõpuni! Diivani kokkupanemisel toote praagi ja mittekomplektsuse tuvastamisel pakend on vajalik säilitada kuni kaubandusettevõtte esindaja teie juurde tulekuni.
3. Kontrollige detailide ja furnituuri arvu vastavalt loendile. Tootja jätab endale õiguse teha tootes konstruktsioonilisi muudatusi, vahetada furnituur ja peenraud sarnaste vastu, mis ei halvenda välimust ega mõjuta toote funktsionaalseid omadusi. Puuduse või rikke korral, märgistage puuduva detaili number ümber ja võtke asendamiseks ühendust kauplusega.
4. Järgige selles juhendis antud kokkupanemise järjestust! Kokkupanemis- ja kasutusjuhendi mittejärgimisel, kaotab tootja garantii kehtivuse.
5. Diivani paigaldamiseks valige tasane põrandapind! Põranda kumerusel võib esineda kõrvalekaldeid diivanvoodi/tugitoolvoodi transformatsiooni mehhanismi töös, toote kuju moonutusi.
6. Pange diivan kokku kahekesi. Liigutage kõiki detaile ettevaatlikult, ilma tõmblusteta, asetage need kindlalt, vältige nende kukkumist ja lõõmist!
7. Liigutage mööblit ja selle detaile, tõstes vaid veidi. See hoiab ära deformatsiooni ja purunemise.
8. Määrige kindlasti tõstemehhanismi kokkupanemise ajal vastavalt juhendile! See hoiab ära enneaegse krigisemise. Korrake määrimist, pingutage silmnähtavalt lahtised poldid ja mutrid vähemalt kord kuue kuu tagant.
9. Uus mööbel võib materjalidest, millest see on valmistatud, eraldada loomulikku lõhna. Lõhn võib püsida kolme nädala jooksul alates kokkupaneku hetkest. Lõhna intensiivsuse vähendamiseks on soovitatav toode tolmuimejaga imeda ja ruumi tuulutada. Neid toiminguid tuleb korrata 3-4 korda päevas.
